We have both commercial and domestic professional local plumbers, 24 hour gas safe registered, heating engineers, NICEIC electricians, emergency gas specialists, reliable builders, local glaziers, experienced joiners, locksmiths, professional builders, air-conditioning – refrigeration technical engineers, who are based all over Central London, West End London, South West London, North London, North West London, South East London, East London, Essex, Enfield, Kent, Enfield, Richmond & Twickenham and all surrounding areas to serve you whenever you need. No matter what it is, our emergency experts who have been trained and

qualified are here to help you with all emergency and non-emergency plumbing and heating problems and also some other issues

Advanced Professional Plumbing & Heating Services have extensive experience in the commissioning and decommissioning of any commercial gas pipework and any commercial gas pipework purging service required. We have an enviable record of completed commercial gas projects large and small, and we can carry out comprehensive gas testing and purging of commercial gas pipework throughout the UK. At locations throughout the UK, we have Gas Engineers trained to deal with all aspects of commercial gas pipework purging whether on new build, refurbishment or decommissioning.

In IGE/UP/1 and IGE/UP/1A (Strength Testing, Tightness Testing and Direct Purging of Industrial and Commercial Gas Installations), The Institution of Gas Engineers and Managers (IGEM) has laid out clear principles which must be observed whenever a gas supply is to be commissioned or decommissioned, whether a new or an existing installation is involved. The person making the supply available must ensure that all air and gas, other than the gas to be supplied, is purged from the installation.
