Highwood-Hill NW7,NW8 Family run Emergency Recommended Commercial Duct Ventilation Systems Specialist NW4,NW2 Cricklewood,NW3 Belsize Park,Harlesden,NW10 Kensal,Green Gas Interlock System Kingsbury NW10,NW11 Regent's Park NW5,NW6,NW7

To comply with gas safety standard BS 6173, all new kitchen installations must have a gas / ventilation interlock installed. The interlock simply shuts off the gas system when no air flow is detected through the ventilation system.

The main reason for such systems are to protect the area from dangerous gas build up, when the ventilation is not running, or the area is unoccupied...

Gas interlock systems range from simple ventilation interlocks, to the more advanced gas proving and leak detection systems. Standard interlocks include...

- Air flow interlock
- Fire alarm interlock
- Gas proving switch interlock
- External gas stop buttons
- Additional external time clocks etc

Our works with kitchen ventilation systems, regularly includes the supply and installation of interlock systems. We are fully registered for the gas installation and commissioning works of commercial and industrial gas pipe work.

Commercial Gas Interlock System in Commercial Catering Kitchen Canopy Installation – Family Run 24 Hours Commercial Catering Engineer/Experts in London

At Advanced Professional Plumbing & Heating Services. Our engineers are specialists in installing and repairing gas interlock & gas proving systems, for all your commercial extraction & ventilation needs contact We supply and fit gas interlock system to commercial kitchen such as **Take-aways , Offices, Restaurants, Hotels , Pubs, ☐ Colleges, Universities, Guest Houses, Nursing Homes, Clinics, Schools , Childrens Nurseries,Wedding Halls, Wedding Halls,Churches, Temples and other commercial catering places and many other commercial properties.**

We also can install commercial gas lines, canopy for your commercial kitchens. All work carried out by our team of fully qualified commercial gas engineers

Commercial Kitchen Canopy

-Canopies are designed to remove harmful fumes (carbon monoxide gasses) & the removal of heat & grease generated from cooking equipment situated below.

- Regular cleaning of your extraction system is recommended. There should be suitable access to the ductwork to allow for regular cleaning preventing accumulation of fat & grease. If regular cleaning isn't monitored hidden combustion loads form. Also flames or very high temperatures within the duct can ignite any grease causing a fire.

CANOPY FILTERS

- Mesh filters require regular washing & as a consequence are less reliable & can be regularly replaced.

- Baffle filters are safer & are less of a fire risk because they are designed not to hold on to any fat or grease. Air is drawn through the filter forcing a change of direction & speed resulting in separation of grease into collection troughs.

GAS AIR INTERLOCKS

- All extraction systems must have a gas interlocking system in place to comply with BS6176 & should be installed by a CORGI registered engineer. This prevents the gas from being turned on until ventilation is fully operational.

- Interlock systems such as the [Merlin CT1200S](#) use an air pressure sensor which detects when the canopy is working correctly with sufficient air flow. Once this is achieved the gas solenoid valve will open from a closed position.

Emergency 24 Hours Commercial Catering, Chargrill, Cooker, Oven, Pizza Oven Specialist

You can cook more than just pizzas in the oven, roast meat tastes delicious as does fish, stews, puddings and bread.

Ovens are made in the UK from materials that are designed to withstand the British weather so you can buy in confidence that your oven will last and some other countries and they are designed to the countries standards.

However, when it comes to do installation or repairs, you can't just do that yourself as you need to do the jobs properly and you need to get a commercial gas catering engineer to do the jobs on these catering appliances for you as you know you need to do things by the book and all the rules and regulations on gas jobs have to be complied by a professional company who can take care of everything for you to save you from having unexpected troubles.

At Advanced Professional Plumbing & Heating Services we have our professional commercial catering engineers who have catering gas qualifications to work on these catering appliances such as Bakery ovens repairs , baking ovens cooking opens specialist, commercial catering cookers, commercial catering ovens , griddles, Kebab making machine, Kabab Cater-Grill & Roller Grill Commercial PIZZA OVEN GRILL MACHINE, fryers, griddles servicing and repairing, chargrills, commercial cooler, commercial refrigerations, Cooking , Bratt Pan , Electric Fryers, Burners, Gas Fryers , LPG cookers, Panini Makers repairs expert London ,Ranges Ovens , Combi Ovens , Pizza / Pasta / Kebab making machines, Grills / Salamanders , Commercial Chargrills , Griddles , commercial Hob Units , commercials Toasters , commercial, Refrigeration Freezers, commercial Pasta Boilers, etc.
